

Did You Know?

Each day 10,000 humans are born in the U.S. – each day 70,000 puppies and kittens are born. As long as these birth rates exist, there will never be enough homes for all the animals. As a result, millions of healthy, loving dogs, cats, kittens, and puppies face early deaths as a form of animal control. Other are left to fend for themselves against automobiles, the elements, animals, and cruel humans. What can you do to stop the suffering? **Spay and neuter your pets!**

An unsprayed female dog, her mate and all of their puppies and their puppies' puppies, if none are ever neutered or spayed, add up to:

1 year = 16

2 years = 128

3 years = 512

4 years = 2,048

5 years = 12,288

6 years = 67,000 dogs

Concept from: Spay USA, www.spayusa.org

“Are your pets spayed and neutered?? Stop pet overpopulation!!! Do your part.”
